VOLUME XXIX. SUNDAY, 25, 1889—TWENTY-EIGHT PAGES. PRICE [illegible]

Parisian Suit Co.
CLAFLIN & TUTTLE, Proprietors.

On Monday Morning, Aug. 26,
WE WILL INSTITUTE OUR ATTRACTIVE
SUIT SALE
for other inducements to tempt patrons that will astonish us all.

In order to make room for our Fall and Winter importations that are getting daily we will mark down the balance of our Spring and Summer Dresses and Tea Gowns to less than 50 cents on the dollar.

In this well assorted stock of Suits and Skirts will be found at the lowest quotation of the day at prices as low that they will insure their immediate sale.

We quote a few of the many low prices for this

SPECIAL OCCASION:

FANCY TEA GOWNS at $2.75.
Former prices, $5 and $10.

Tea Gowns of all kinds at $5, $10, and $12.
Former prices, $10, $20, and $25.

Satine Dresses, in all colors, at $2.75, $3.75, $5, and $7.50.
Worth fully double the prices asked.

Handsome Satines, in the latest and most fashionable designs, at $3.
Former price, $10.

Wool Dresses of every description at $10, $12, $14, $16, and $18.
Worth more than double the money.

Those who favor us with a visit to our Suit Parlors will receive a Handsome Cream or Fine Tea Gown, or quantity of Dress Goods, as a souvenir of the occasion.

Mail orders, from readers of French Novelettes in Saturday and Lady Chesterfield, which we will open for inspection tomorrow.

Please Call and Examine.

TO STOUT PEOPLE!

Chicago's star still in the ascendant; all the Western and many other States are rallying to her banner for the World's Fair. Like Hartley's Souvenir Chicago is bound to win! "Everything is ready and the guns range high." Witness the Chicago and Hartley's Souvenir!

Chicago will capture the next WORLD'S FAIR, "the one the" "BIG" she is sure to "get there!" Pronouncing New York our "edge but the latter, the last "d" "documents" are demanding this. Chicago, nevertheless, is still "up and doing." She is correct in one view she "pulls down her coat!"

The unassuming MILLIONS will give her the "Fair!"

While the people of New York will sign "up the dotted line" for the FIVE MILLION DOLLARS loan or more, here both THE MILLIONS merely "go ahead," "let her rip!"

Hartley's Souvenir's a prophet, always thought, but wrong.

He predicted the Tycoon would open their purses!

When that gun from high prairie was seen to smoke thereby,

And by word of employment pulls up and here comes!

They laughed at the Souvenir, he laughs now at them.

He holds the whole while laugh the forerunning best!

Our Colorado and Chicago of whose exhibits for the great fame is of THREE HUNDRED LARGE AND SMALL.

The World's Fair in Chicago is assured of its town,

And more to our buildings A THOUSAND FEET TOWERS!

Will be proud owners toward the time when

Then all living Chicago will meet with surprise To hear Hartley's Souvenir with compliment praise.

Call about, from the top, to the bottom within

That the CHAMPION of CAMERAS that all others combine

To sell at the pittance of THREE HUNDRED AND FIVE.

LOCATION AND DESCRIPTION.

DAUPHIN PARK comprises 640 acres, making about 1,000 lots, and is located on the SIDE LOTS two blocks south of the crossing of the Illinois Central and Michigan Central, on the Rock Island, the Chicago & Atlantic, the Western Indiana and Louisville & New Albany Railroads, and affords from fifty to one hundred feet more depth to the lots than any other property for sale. Daily excursions will be run over the Illinois Central Road at a cost of $1,000. The other improvements consist of a large water main (over 10) completed on all streets, handsome shade trees in front of each lot, and all sidewalks graded. The advantages are: Trains every 15 minutes morning and evening; only 20 minutes ride from the city; all the conveniences to the depot; no long walks; best light, fire and healthful location; beautiful park and parkway has followed, adding greatly to the beauty of the place; building laws are satisfactory, which compels purchasers to build at once. No business buildings will be allowed on residence avenues, thereby preventing the encroachment of business, and the best improvements. Dauphin Park cannot fail to be a first-class suburb, and the exceptionally low price of lots and the easy terms I offer place a residence here within the reach of all who desire first-class suburban accommodations at a moderate cost. Homes are now building to follow at once. In five years Dauphin Park will have a population of 10,000 people.

DEER PARK, Md., Aug. 24.—[Special.]—New York has some hotels that boast. The Manhattan is unsurpassed, and it requires about two hours' train from a metropolis to make one forget that he has been a guest of the Windsor. The people who constitute that city are of choice. They are the keepers of fashion in the wide country, stockings to the very slingbag of the unclassifying dilettante.

No one has enjoyed the beautiful days of the last week more than Mrs. Harrison. Every morning has found her out for a walk through the lovely home grounds, which include the attractive cottage in the immediate rear. Every afternoon she has enjoyed a carriage ride, and every evening she has had the Harrison and Mrs. McKee with her, some happier group has not been met here. There are to be six more Presidential afternoons remaining to the Deer Park resort, and each one will be enjoyed by the White House circle as much as the first one. Not a single moment of the time will be spent in the cities, for which such elaborate preparations are being made.

The young people have had a gala time this week in the hotel. Monday night a grand assembly was given for the benefit of the town. The house at Deer Park never looked more beautiful than on this occasion. The dainty arcade was floored in right merry, girls, of course in most elaborate, gaily, gowns and gallants.

Cramps and Pains

With what alacrity Sanford's Ginger responds to the cry of distress! No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

Sanford's Ginger

Compound of imported ginger, choice aromatics, and the best of medicinal fluids, instantly relieves cramps and pains, quickly checks all forms of summer ills, prevents indigestion, destroys disease germs in water drunk, restores the circulation and digestion when suspended by a chill or excessive heat—the frequent cause of stomach troubles and sunstroke—weakness, colds and fevers, poisonous odors, chips mosquitoes, and works off mental, constipation, and epidemic influences.

For the aged, mentally and physically overworked, nervous and sensitive, it is most valuable. No household or exercise is safe at this season without it.

Beware of cheap, worthless, and often dangerous "gingers," which are persistently urged upon you by the purchasers of Sanford's as "our own make," or "good as Sanford's," or "cheaper than Sanford's," or "same as Sanford's," etc. Based on intrinsic worth, Sanford's Ginger is the cheapest ginger in the world, costing one to five cents that of any other and selling but a few cents higher than the cheapest peddler's ginger. [illegible] Is Issued in New York by the Passenger Managers Who Instruct Him to Organize a Plan for Preventing the Existing Difficulty on Through Traffic—Chairman Faithful's Resolution on Scientific Rates Goes Into Effect—The Limit of the Commission's Powers Asserted.

Chairman Faithful of the western and northwestern division of the Western Freight association was instructed at the meeting of the association yesterday to get to New York as soon and try to submit the fourth time to have through traffic to the East and Southwest on the same rate as those now in use to the Lake Superior ports and to the Pacific. This is in order to prepare for a protest to the body, but it is expected that the trouble will be settled. The main proposition to be laid before the Eastern lines is the restoration of the differential rates to Chicago. This would give the same rates to Chicago and Missouri river points as to the Chicago, Peoria & St. Louis gateway. If this cannot be arranged it is understood it is the intention of the Chicago lines to withdraw from the through arrangements, and the Chicago, Peoria & St. Louis will be given the same rates through to the East via Chicago.

Chairman Faithful also brought out the fact that the Chicago, Peoria & St. Louis rates from Chicago to the East were less than those from Chicago, and that these rates must be restored to intermediate points. Representatives of the Chicago, Peoria & St. Louis road say that they are not getting any more than their share of the business, although their arrangements with the Wabash road are such that the proportions are 10 cents, which is the present rate to Chicago, and Chairman Faithful wants to be taught. The officers of the Chicago, Peoria & St. Louis evidently think that, while they get only 10 cents from Chicago, they get 15 cents from Peoria, although the arrangements of the two roads

A Talk with Prof. Barnes About the Bill Soon Then Over the Mat to Fight Against the Big Bunch of Sweeping the Wires on Telegraph Poles—Going Into the Basics of the Movement—Manufacturing Locations That Are Pretty Perfect—A Word About Electricity.

Four thousand poles are to stand on for each as it is necessary to get to get a start on the system of subways. It is quite feasible, it has not at once used for the main purpose as that which is going to prefer to use. The underground system of that the city period may be the benefit of giving Chicago longer a safe state of aesthetic, and forty-seven of these local device ones to poles in the present, and a lesser number to lay for economic ends, to a portion, some of the every one save of the staff and department of a enterprise purposes.

The first actual system to enable passengers to have suggested above this. The system was utilized for the purpose of accommodating the network of telegraph wires of the city. There was nothing about the system particularly noticeable. The wires were drawn into ducts or sewers, the same as those which are now in use in the Engineers street or in fact in any branch. The system served as a starting point, and was the improved upon by the city of Berlin, London availing it self to this slight extent.

A journal for Chicago to take the day has appeared this in this system, and which, combining brightness and practicability, the system has been attempted from end to another until today it has gradually been worked to the front, and is a distinct honor of the people as a whole that has to such perfection as is shown in Chicago.

PROF. BARNES.

The first step in the underground system was taken in Prof. T. C. Barnes, the electrician of Chicago. Professor Barnes's many new achievements in Chicagoness are to the matter, to the effect of not only to the Chicago Underground Company, but to the whole Chicago Telephone Company, and to the Western Union Telegraph Company. Professor Barnes is a native of Ireland, and has been in this country for the past fifteen years. During this time he has contributed to the world many valuable inventions in connection with electricity. It was the first underground system which secured the right to string wires on poles belonging to other companies, the system was first put in use by Professor Barnes, and the right to that now held by the Western Union company, though the Chicago Telephone company, and the Chicago Underground Company, and the Chicago Electric Light company, and the Chicago Underground Conduit company, and the Chicago Underground Electric company, and the Chicago Underground Electric Light company, and the Chicago Underground Electric Light and Power company, and the Chicago Underground Electric Light and Power and Conduit company, and the Chicago Underground Electric Light and Power and Conduit and Subway company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric and Telephone company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric and Telephone and Telegraph company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric and Telephone and Telegraph and Electric Light company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric and Telephone and Telegraph and Electric Light and Power company, and the Chicago Underground Electric Light and Power and Conduit and Subway and Manufacturing and Locating and Boring and Tunneling and Excavating and Grading and Paving and Repairing and Sewer and Water and Gas and Electric and Telephone and Telegraph and

WHAT THE LEAD COMPANIES HAVE ARRANGED FOR COMING SEASONS.

Preliminaries That Signal the Regular Season of Stock and the Legitimate Attractions Which Will Hold the Boards—A New Frohman Engagement Which Is About to Commence at Schlesinger & Mayer's on the Site Soon of a Former Famous Home Music Publishing Establishment.

The regular season which is said to have opened on the arrival of the autumn procession beginning on the Bowery. The inauguration of preparations in "Greenback Jo" at the Chicago opera-house has given it one week, at least, to remain on and on hand, if not longer during its long run. The last week of "Trilby" at the Columbia will have ceased. It will give way then to Mr. Thomas Keene in "Richard III."

The "question" of the week has once been answered. Could by him, "Trilby" should appear on at all with the box of actresses at Hooley's, and scores of managers, the answer must be the most permanent of stage fixtures in a theater that does. Hooley's will in the end decide to keep open, and no actual change is to be expected in the Randolph-street house for some time. The management is to be congratulated on the wise and generous policy of keeping the house open during the hot season, and the attachment of guests, manager is not to be limited to the theater proper, but extends also to Mr. Hooley himself. He has made many concessions to Chicago in former years. He has been generous in Chicago's affairs in business.

Preparations are not lost to the week.

Hooley's—Mrs. Mary Prescott's play will be given at this theater tomorrow night, and the public will undoubtedly be glad to see her, after a single season. Mr. Lord leads the company, and the engagements of the performers, in fact, all the elements, promise at the best dramatic entertainment. The play is a strong one, and the company is a good one. The engagement is for one week only.
